

Why Retail Accounting?

ACCOUNTING SERVICES

Our Proactive, Experienced Team

We do more than just record the numbers. We get to know your business. We'll call you when something doesn't look right. We scrutinize your grosses and other specialized accounts, and we know what to expect.

Our Timely Service

While most accounting firms finalize statements as their work load allows, we perform to a time standard that we exceed year after year.

Our Detailed Financial Statements

Where others would lump items into one account, we provide sufficient detail for you to have strong visibility into your business records. We maintain an in-depth understanding of what is in each account, and we include notes and comments with each statement to provide a complete record of activity.

Our Tools to Provide you Insight

Our statements include **key performance measures and ratios**, essential in understanding the drivers behind financial performance such as inventory turns and sales per payroll hour. Few other firms offer this expanded information.

For our grocers, the **Department and Store History (DASH)** report is a standard part of our financial statements. This one page summary presents key information in graphical form and adds multi-year history. In a matter of minutes, you can review your financial statement for the highlights and compare it to the last several statements.

The DASH, together with our **Consolidated Financial Information (CFI)** for grocers benchmarking tool, can help you draw actionable information from your financial statements.

Our Robust Panel of Services

Having strong, experienced teams in tax, payroll, accounts payable, and inventory scheduling services means you can have all of your financial services under one roof.

Why Retail Accounting?

PAYROLL SERVICES

We Have a Client Focused and Experienced Team

Few payroll services have the level of experience and stability of our team. With us, you'll form long term relationships and we are always readily available for you. Our many long-term clients attest to our consistent accuracy and personal service.

We Are Easy To Work With

Rather than having many stringent timelines and bureaucracy, we've built a service tuned to your business. We make it easy to get action and answers, and we understand grocery retail. Pay day upon pay day, we ensure your needs are met.

We Help you Save Time and Money

Many features are standard in our per check fee, meaning that when one compares our total cost to that of other services, we are competitively priced.

With our paperless payroll feature and Visa branded payroll debit card, you can reduce processing expenses even further while providing an attractive employee benefit and eliminate an administrative task since you'll no longer need to distribute paychecks.

We Have a Complete Service

Time clock interfaces, 401k transmission to 3rd parties, absence management reporting, custom reports and other payroll related matters are all easily managed by us.

We provide seamless integration with Supervalu's EWM system and with our Accounting Services for the preparation of financial statements.

We Can Provide a Hassle-Free Transition Any Time of the Year

You don't have to wait for year end to make a change. We enable a smooth transition any time of the year. We'll work with you to establish plans and complete the process, minimizing the disruption for you and your employees.
